SETH MARCH

BAF AROCC, APO, AE 09354 | seth.d.march@gmail.com

Summary

Intelligence professional highly accomplished in planning, coordinating and executing All-Source intelligence analysis and operations for the U.S. military and defense agencies.

Highlights

- Top Secret/SCI Security Clearance
- Ability to perform All-Source Analysis and Production
- Proficient with Microsoft Office, Google Earth, ArcGis, SIPRNet, CIDNE, Analyst Notebook, CEXC and Intelink
- Possess extensive knowledge of computer-based applications
- Excellent ability to multi-task and accomplish tasks with limited supervision and responds to short-notice tasking

Accomplishments

Awarded the Joint Service Achievement Medal in August 2010
Awarded USF-I J2 Junior Service Member of the Month in May 2010

Experience

Report Writer/Quality Control   May 2012 to Current
Centurum/Six3 Systems - Bagram, Afghanistan

- Authored KL intelligence reports while supporting combat operations from a forward deployed location
- Performed quality control checks and corrections on time sensitive intelligence gists

Geo-Location Operator   Apr 2011 to Apr 2012
SAIC - Fort Gordon, GA

- Provided real-time targeting intelligence through STG to deployed forces
- Authored KL intelligence reports supporting military tactical operations
- Analyzed targets pattern of life in support of kinetic strikes

All-Source RFI Manager   Aug 2010 to Apr 2011
US Army - Fort Meade, MD

- Provided time sensitive, near real-time support and analysis on IMINT and SIGINT data requests submitted by customers
- Conducted near real-time analysis of active operations for forward deployed units
- Maintained technical databases in support of analysis/collection operations
- Supported tactical interrogation mission through CELLEX

C-IED All-Source Analyst/Instructor   Feb 2010 to Aug 2010
US Army - Baghdad, Iraq

- Led a three man, mobile training team, teaching All-Source C-IED Tactics, Techniques and Procedures to Brigade Level Military Intelligence Companies
- Used SIGINT, IMINT and HUMINT to provide IED threat warning tippers to Brigade level forces
- Produced target packages using SIGINT, IMINT and HUMINT to support the elimination of IED networks
- Made requests through tactical interrogators to develop the C-IED mission

C-IED All-Source Analyst   Feb 2008 to Feb 2010
US Army - Fort Meade, MD

- Operated as a Counter-IED All-Source Intelligence Functional Analyst, with a focus on explosives, delivery systems, builders, facilitators and networks
- Combined HUMINT, IMINT and SIGINT to produce intelligence products, interrogation support packages and targeting recommendations
- Used recovered Biometrics data to develop and target IED facilitators and networks
- Tracked, produced, and published monthly products on respective functions in support of Iraq wide efforts to counter the Improvised Explosive Device (IED) threat against US and Coalition Forces

Education

Bachelor of Science, Information Systems Security   2015
American Military University – Charles Town, WV, USA
Minor in Intelligence Studies

Military Cryptologic Continuing Education Program (MCCEP)   2011
National Cryptologic School - Fort Meade, MD, USA

EW/Signals Intelligence Course (35N)   2008
Goodfellow Afb, TX, USA
